

Managing Content

Content you've added may need updated over time, or you may not want to publish your content right away and just want to save your draft for publishing at a later time. The first step is to navigate to the content you want to edit. If it's an already published Resource, Group or Event you can simply navigate using the main menu to the page. If it hasn't yet been published or you just want to see all of the content you've added, your content is listed on your 'My Account' page.

1. Click the 'My Account' button in the User Bar (at the top right of the screen).

2. Your content is listed in the order it was last created or edited. Click to navigate to the page you would like to update or edit.
